

HCSS User's Conference

November 19-22, 2013
Kerrville, Texas

I have some big shoes to fill...

A little HCSS history...

We may have started from humble beginnings with a card table in the living room as our first office, but with hard work, a dedicated staff, and a sincere desire to take care of our customers, we have built a company we are proud of and that has been serving Texas counties and municipalities for over 30 years.

Over the years we have been called “mom and pop”, well I don’t see that as a negative. It just means we built this company on a solid foundation and that we treat our staff and customers as family.

HCSS Software Packages

**Budgetary
Accounting**

**County &
District Clerk**

Justice Court

**Municipal
Court**

**Law
Enforcement**

**Hot Check
Departments**

**County &
District
Attorneys**

Tribal Court

OMNIBASE Services of Texas

Failure to Appear Denial of Renewal of Texas Drivers License Failure to Pay

We are excited to announce that we are working with COPsync to help protect Texas schools

COPsync911 is the fastest way to connect teachers to law enforcement officers in the case of an emergency. With one click of a button:

- An alert is sent to dispatch and to the 5 closest officers in their patrol cars.
- Live two-way communication is established giving the officers detail about the threat
- Officers are given GPS directions to the school and a diagram of the school with the room number where the alert originated
- Text messages are instantly sent out to school administrators, off-duty officers, and other officials
- Every other room on the campus is alerted

2014

It's gonna be an exciting year!

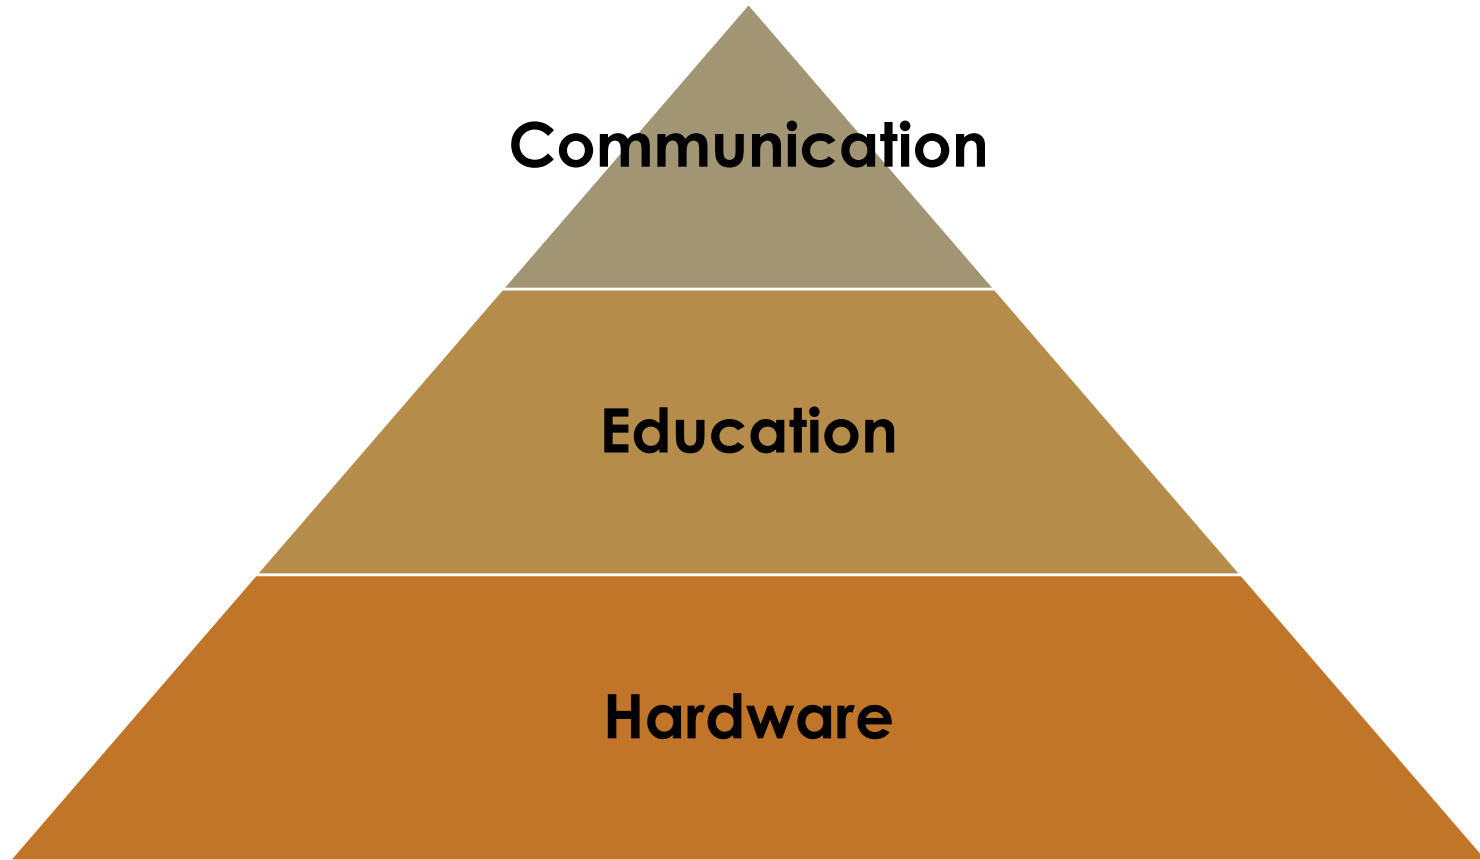

We are already working on several new projects for 2014 that will enhance your HCSS experience whether it's a new look to the software, enhancing the document merge process, adding a new search option for commissioner court minutes, or everyone's favorite.... E-filing!

There are also some behind the scene changes underway that will help us better serve you. Stay tuned for some new and interactive additions that will improve communication and help you stay informed of what is going on at HCSS.

Technology is constantly changing and improving, but that doesn't mean it has to be scary or more complicated for you. It's our job at HCSS to ensure technology is working FOR you and not making your job more difficult.

What can you do?

Thank you!

We look forward to working with you in 2014
